A Cornerstone of Care in This Community

World class doctors. Compassionate care.

Since opening in 2013, the Castle Rock community has grown to appreciate the convenience of having expert medical care close to home. Our dedicated caregivers are fueled by their individual passions and purposes to serve our flourishing community. We offer advanced care in many specialties. Our comprehensive medical teams deliver remarkable care, high-quality outcomes, and unparalleled patient satisfaction among a wide variety of medical specialties, services, and programs.

- ✓ Joint Commission Primary Stroke Center
- ✓ State-of-the-art Cardiac and Interventional Radiology
- ✓ Newsweek's Best Maternity Hospitals
- ✓ 3D Mammography – Colorado's First Sensory Suite

Douglas
County

Legacy of caring.

Our founders were true visionaries driven to deliver compassionate care and inspire individuals to improve their whole health starting in 1882. When you think of Centura Health as a 140-year ministry, we are a small part of a larger, rich history.

We are standing on the shoulders of giants, building on the discoveries made by the faithful, risk-taking pioneers who came before us.

Gracel F.,
Pharmacy

Our Mission has been inspiring since day one.

We'll always be evolving — you and our communities — but our hard work and commitment are rooted in big things that never quite change.

We extend the healing ministry of Christ by caring for those who are ill and by nurturing the health of the people in our communities.

Health is better where we are.

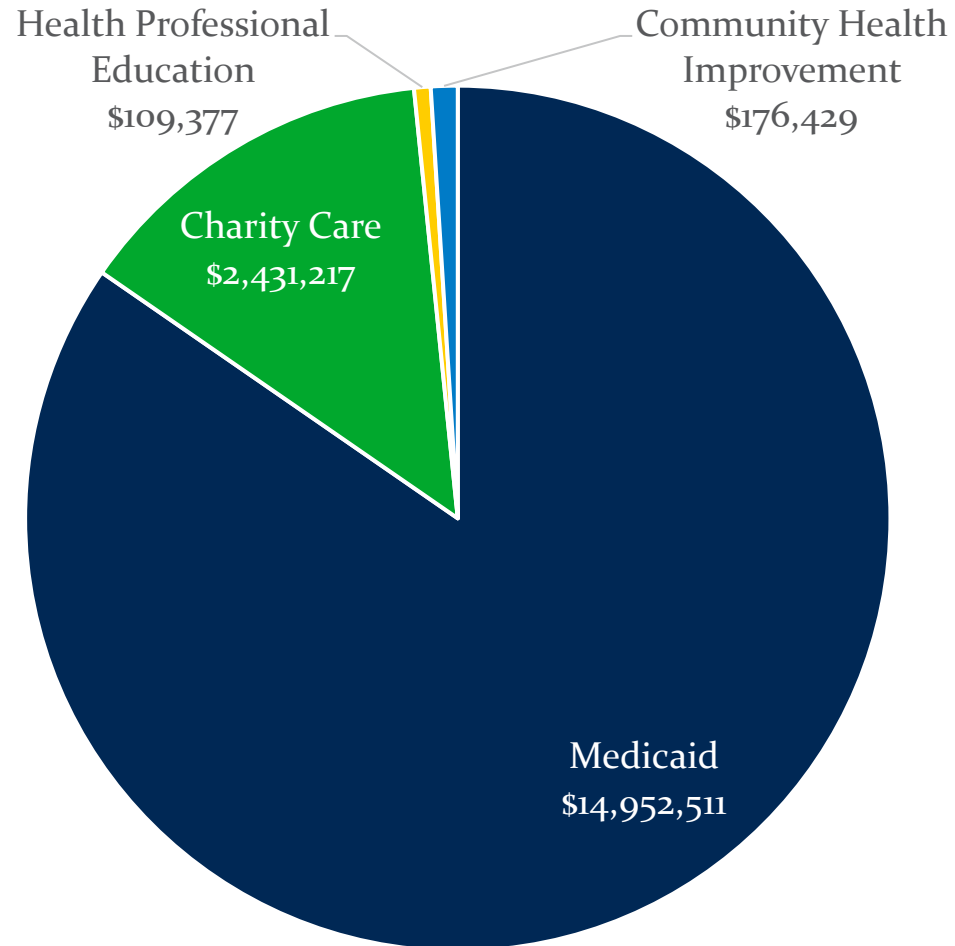

*St. Francis Hospital – Interquest will open in July 2023

Community Benefit Fiscal Year 2022

\$17.6 Million

The Hospital Transformation Program

Hospital Transformation Program (HTP)

- Quality Improvement program specifically for Health First Colorado members
- Over the course of the five-year program, provider fee-funded hospital payments will transition from pay-for-process and reporting to a pay-for-performance structure in an effort to improve quality, demonstrate meaningful community engagement and improve health outcomes over time.
- Community engagement is a key component of our work

All Hospitals are Required to Work on These Six Measures

- **Readmissions:** Making sure people do not need to be re-hospitalized within the 30 days after being discharged from the hospital
- **Screening for Social Needs:** Asking people if they have any concerns about food, housing, transportation, utilities, or violence in their homes and helping them find resources to meet their needs
- **Behavioral health:** Working with Medicaid to make sure people with mental illness or substance use disorders have good plans in place when they're discharged from the hospital
- **ALTOs:** Alternatives to Opioids – giving people in pain in the Emergency Department pain medications that are not opioids
- **Hospital Index:** Improving the quality of care that patients receive and reducing the cost of care
- **Length of Stay:** Getting people out of the hospital safely

Hospital Specific Measures

- **Statins for stroke patients**
- **Pregnant and postpartum depression screening**

Looking Forward: What Are Other Important Needs to Consider?

What should we consider as we move forward with our work?

Is your organization currently participating in regional care coordination efforts?

Let us know if you would like to work with us to address our measures.

Community Health Priorities

Living our Mission

Community Health Priorities

2020 - 2022

Behavioral Health

Access to Healthy Affordable Food

2022 - 2025

Behavioral Health

Access to Healthy Affordable Food

Strategic Objectives

- ✓ Advance community health alignment and integration
- ✓ Build capacity for more equitable communities
- ✓ Expand clinical community partnerships and linkages
- ✓ Inspire, innovate and scale high impact initiatives
